Vending Equipment

Abberfield Industries produce Revenue Collection Equipment including coin validators, note and card readers to complete vending machines. The company seeks to supply the needs of the vending industry and offers its capabilities from Design, to module supply, to part or total manufacture.

Capabilities

The company employs a number of engineers for industrial design, electronics and software development.

Considerable emphasis is placed on injection moulding of components for a professional and consistent quality appearance. In-house tooling allows rapid and economic time to market for new projects.

Supporting the Tool Room and providing production engineering, a multi-station NC mill allows great flexibility.

Security for the many cash systems come from on site sheet metal fabrication staff, particularly gifted in fine bead welding and metal finishing.

Powder coating and wet spray capability allows Abberfield to meet customers colour requirements and ensures continuity of the manufacturing process.

Production and service of electronic components is the heart of Abberfield's activities. A team of technical staff are on hand to assist customer's with their enquiries.
