HIGH SECURITY WALL MOUNT REAR CASH DRAWER

MODEL WMRE

Basic Unit

High security through the wall mounting cash drawer emptied from the rear.

- Mounting sandwiches the wall with a plate on either side of the wall. Does not need to be set in mortar.
- Normally in painted steel. Can be supplied in stainless steel or stainless facia and steel body.
- Optional decorative fascia allows a fitting of a protected instruction label behind a clear panel.
- **Fascia dimensions:**
395mm H x 260mm W
- **Hole in wall dimensions:**
375mm H x 240mm W
- Depth of wall adjustable from 195mm to 250mm.
Note: if fitted to a thinner wall an infill section can be added.
