DIMENSIONS
Model PD32FC1
 750mm High
 185mm Wide
 130mm Deep
 10kg Weight:

FEATURES

- Attractive design - not at all like the others.
- Solid construction. The dispensing mechanism is attached by five concealed bolts and can be readily replaced. The cover has an internal concealed slip hinge, permitting rapid replacement of the entire unit, without having to unscrew the backing plate from the wall.
- Sold-out protection. When empty, the display windows 'SOLD OUT' and the mechanism mechanically locks so as not to accept any coins inserted.
- \$1 or \$2 operation for convenience. Australian one and two dollar coins are accepted and the packet contents are varied to suit the required charge rate.
- Suits varying packets. The self-loading dispense mechanism accepts various packet sizes and can be adjusted if necessary. Shute length 630mm (holds 50 of the most popular packet).
- Abberfield Technology will supply a list of condom, tampon and party-shield suppliers.
- Guaranteed by the manufacturer. Abberfield Technology have produced coin validating equipment for 18 years. Our operations are firmly based as Australia's only manufacturer of sophisticated coin validation equipment. Unlike some companies importing machines, Abberfield Technology can guarantee ongoing supplies and service.
