THE ABBERFIELD GROUP

Water Dispensing

Lockable cages for protecting Residual Pressure Zone devices (RPZ)

The Abberfield cage is not your average cage.

Quality design
Quality construction
Extended warranty

Standard Cages
Galvanised steel construction with stainless feet, hinges and locking plate, painted black.

Premium Cage
Wholly stainless steel construction, painted black.

Features

- Rectangular section construction (not angle iron).
- Full cover lid (weather and sun protection for plumbing).
- Bottom rail off ground (prevents rusting and collection of debris).
- Galvanised steel construction painted black (prevents rust, neat appearance, black blends into the surrounding).
- 316 stainless steel feet, hinges and lock plates.
- Dual 316 stainless steel lid restraining chains.
- Reversible lid (mounts on either side of Water Filling Station).
- Supplied with stainless steel mount ground fasteners.

Optional Extras

- Cage insulation (for frost protection of plumbing).
  i) concealed underside of lid.
  ii) enclosed side of insulation.
- Complete stainless steel option.

- Standard Design is for rising mains (for neat appearance and secure plumbing) into the cage. Above ground plumbing entry available on request.
- Customisation designs available.

Dimensions
1835 mm long
585 mm wide
940 mm high

Cage behind (alternate installation)

Underground rising plumbing inlet (standard)

Above ground plumbing inlet (optional)
