

**Each day - one day closer to drought**

**BE PREPARED**

**Water Filling Stations support communities**

### **The LAST Drought**

- The founder of Abberfield walked off his vineyard after forty years, for want of water.
- Abberfield delivered, installed & supported Water Filling Stations throughout Australia, for potable or stock water, by credit / debit or account card payment.
- The need to waterproof Australia was obvious.

### **The Commitment**

- Six-million-dollar investment in two properties, Office/Factory & Warehouse.
- Two-million-dollars in new technology for the next generation Water Filling Station.
- Employment & training of next generation staff.
- Purchase of two mobile home/office/workshop support vehicles.

**The NEXT Drought - Abberfield will be prepared. Will Councils be prepared?**
