New bulk Water Dispensing Units up and running!

Narrabri Shire Council have commissioned four new bulk Water Dispensing Units in Pilliga, Gwabegar, Bellata and Baan Baa.

The Water Dispensing Units are located at:

- Lagoon Street, Pilliga
- Bridge Street, Gwabegar
- Gurley Street, Bellata
- Henriendi Street, Baan Baa

The Water Dispensing Units will enhance Council's services in our remote towns and are capable of accepting payments at the bulk water rate via credit cards (Visa and Mastercard) on a continuous basis.

Narrabri Shire Council was successful in receiving \$150,000 in funding to install the Water Dispensing Units through the Federal Government's Drought Communities Programme which supports local community infrastructure and other drought relief projects for communities impacted by drought.

Council's Director Infrastructure Delivery Mr Darren Raeck described the units as a cost effective means of providing 24 hour access to bulk water for those affected by drought and those requiring large volumes of water on a regular basis.

"This project reinforces Council commitment to improving our water services in remote towns. We are pleased offer provision of bulk water on a 24 x 7 basis in Pilliga, Gwabegar, Bellata and Baan Baa." Mr Raeck said.
